

Intro to Wire Wrap

Instructor: Christine Janicki

Level: Beginner

Duration: 2 Hours

Max Class Size: 8

Intro to Wire Wrap is a beginner class designed to introduce you to the basics of wire wrapping. This is a great class to take when exploring the art of wire to determine if you would enjoy pursuing the craft! We will cover many basic topics including, tools, wire gauges, wire shapes, wire rigidity, work hardening wire, choosing components, cabochon setting styles and options (round vs square wire), basic design concepts, and topics asked by students during class. Skills you will learn include, wrapped loops, double wrapped loop components, opening and closing jump rings, and bindings.

Note: All materials are included, and loaner tools are available if needed on a first come, first served basis.
